The

File No of 193

Serial No

2 There appears to be no distinction between the two kinds of shops referred to by the Mun' Com so far as the applicability of Sec 17 of the Act referred to is concerned In both, Drugs are sold in retail, either as such or in combination with others, and it cannot be said that in the second kind of shops referred to, there is no retail sale of the Drugs merely because the Drugs are sold in the form of mixtures prescribed by the Physician In fact, Drugs are sold separately also in the latter kind of shops, e.g. Gumme, boric acid, tincture of iodine &c

3 The Mun' Com may perhaps be informed that the Section is applicable to both the kinds of shops referred to in this letter

To

R Ranga Rao, Esq , B A , B L ,
Chief Secretary to the Govt of
H H the Maharaja of Mysore,
Bangalore

Sir,

With reference to Section 170 of the Mysore City Municipalities Regulation, VII of 1933 requiring the registry of shops for the sale of European drugs, I have the honour to state that private medical practitioners who keep a shop of such drugs are demanding exemption from the operation of the Section on the ground that they ed do not keep the shops for the retail sale of drugs but only for dispensing their own prescriptions

There are two kinds of shops in the City one kind which is kept mainly for the sale of drugs but which also retain a physician for making out prescriptions and the second kind which on is kept by the medical practitioner himself for dispensing his own prescriptions In my opinion, the section applies only to the first kind and not to the second

I solicit the favour of instructions whether my interpretation is correct

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Bangalore

Sir,

In continuation of this office letter No G To 76 dated 31st August 1933 soliciting instructions in the matter of the interpretation of Section 170 of Mysore City Municipalities Regulation VII of 1933, regarding registry of shops for the sale of European Drugs, I have the honour to forward herewith a copy of petition from some of the Medical Practitioners of the City for information and orders of Government

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Forwarded with Compliments

Hon President

Letter dated 23rd September 1933 from the Medical Practitioners of Bangalore City, to the Commissioner, Bangalore City Municipality, Bangalore City

*****

With reference to your Circular dated 11th August 1933 intimating that our Dispensary should be registered by paying an annual fee of Rs 30/-, be beg to point out that it is our firm belief that the Regulation No 170 of the Bangalore City Municipality is not applicable to us, registered qualified Practitioners - as it is quite obvious that no Government or Local Body would ever contemplate of stifling Scientific Treatment of Ailments by imposing upon the qualified Practitioners conditions which virtually reduces them to the level of men who trade as doctors and chemists, just because the latter happen to command a little capital That the Government of His Highness the Maharaja of Mysore have recognised the necessity of according some privileges to the Registered Practitioners is evidence by the fact that in their Notification No F L 4949, Excise 11-23-104 dated 25th February 19 26 (Dangerous Drugs Rules) have stated that "An approved Practitioner, may possess for his use in practice, but not for sale" a certain quantity of dangerous drugs without a license (Vide No 6 ,Possession) and a perusal in full of the said notification will show that the Approved Practitioner has a status given to him different to that of a licensed dealer or chemist

We are very surprised indeed that Registered Practitioners ~~have~~ of Allopathic System who do not dispense outside prescriptions should be called upon to register their dispensaries, while the Practitioners of the Indigenous System, the great majority of whom are not qualified in the system they practice and who also stock and make use of in their prescriptions the drugs of British Pharmacopia, including poisons, are exempted from Registration with the Municipality

May we point out, Sir, that as Registered Practitioners, we are already under the notice of the Medical Council, and as such, it would be superfluous to subject us to the scrutiny of any other Body

We take this opportunity to emphasize that undue restrictions of the nature detailed in the present circular, not common any where else, as far as we are aware, should not be contemplated if the Independent Medical Profession is to develop in the State and keep engaged the young men who are qualifying every year from the Medical Institutions of the State, in numbers greater than the Government can employ, and thus relieve the -- Officers of the fully equipped Medical Institutions of the routine treatment of common ailments and enable them to devote larger part of their time for scientific researches and treatment of common ailments and enable them to devote larger part of their time for scientific researches and - treatment of complicated cases requiring great concentration of energy and skill
